SINGLE-STAGE MULTI-SPEED GAS FURNACE

AMSS92 | UP TO 92% AFUE

Features to be proud of:

Quiet Comfort

Many homeowners think the best gas furnaces are not seen or heard. That's why an Amana brand AMSS92 Multi-Speed Furnace is insulated for noise reduction. With a sound-isolated blower assembly and a heavy-gauge steel cabinet, it offers quiet and efficient performance as compared to a natural draft furnace.

Energy Efficiency

Energy efficiency equates to cost savings. A gas furnace's efficiency rating can primarily be determined by two factors: its AFUE rating (Annual Fuel Utilization Efficiency), which indicates what percentage of each dollar of natural gas purchased is actually used to heat your home; and the type of blower used in the furnace.

This Amana brand Single-Stage, Multi-Speed Furnace offers 92% AFUE, as opposed to lower ratings of less efficient gas furnaces. Its multi-speed blower can improve its efficiency rating and enable the furnace to maintain consistent warmth in low-heat capacity mode without inefficient high-heat surges associated with natural draft furnaces.

Choose an Amana® brand gas furnace and you won't get cold feet

Often you have no choice but to replace your old, worn-out furnace; however, you can choose to go with a name you know, like the Amana brand, one of America's most trusted and enduring consumer brands. Yet, peace of mind isn't all that you'll enjoy with an Amana brand AMSS92 Single-Stage, Multi-Speed Furnace.

Component upgrade offers better performance in exchange

The most critical component of a furnace is its heat exchanger. The Amana brand heat exchanger is built to deliver durability and performance. Along with our SureStart® Ignition System and its silicon nitride igniter, Amana brand furnaces' key components continue to set our standards for reliability.

Get straight A's in cost effectiveness

When you receive an AFUE rating of 90% or more, your gas furnace is performing at the top of its class. Simply put, the Amana brand AMSS92's 92% AFUE rating means 92¢ of every dollar you spend on energy is actually used to heat your home. That's very little wasted energy when compared with lower-rated or older, increasingly inefficient heating systems.

The security of the Amana brand's amazing warranties

To truly seal the deal, Amana brand gas furnaces are backed by industry-leading limited warranties*. This gas furnace is backed by a Lifetime Heat Exchanger Limited Warranty*, while all Amana brand products feature a 10-Year Parts Limited Warranty*. Together these warranties combine to offer you a level of purchase protection that's the stuff of legend.

LIMITED WARRANTY* PROTECTION

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

The Amana® brand AMSS92 High-Efficiency Gas Furnace advantages:

- ✓ **Control board** – Stores last diagnostic codes in memory and indicates condition through a flashing LED for quick troubleshooting.
- ✓ **Durable heat exchanger** – Unique tubular stainless-steel construction formed using wrinkle-bend technology results in an extremely durable heat exchanger. Paired with a stainless-steel secondary heat exchanger, this combination provides reliability, durability and efficiency.
- ✓ **Multi-speed motor** – Automatically adjusts airflow to match comfort needs, reduces energy consumption and system noise as compared to a single-stage motor.
- ✓ **High efficiency** – Reduces energy needed to deliver outstanding comfort and efficiency as compared to a lower AFUE furnace.
- ✓ **Continuous air circulation** – Provides added filtration and keeps air moving throughout your home to help maintain comfort.
- ✓ **Durable Silicon Nitride Igniter** – Eliminates the need for an energy-wasting pilot light.
